I design and build digital experiences
with an obsessive attention to detail
and reduce the complex to the simple.

# Experience

## USER INTERFACE ENGINEER @ EXONAR
**September 2019 → Present | Key Skills Developed: React, Redux, Sketch, Storybook, Jest, D3, Styled-components**

Exonar is a pioneering data discovery platform that crawls and indexes company data at scale, enabling organisations to understand exactly what they've got and act on it. It relies on cutting edge technology, combined with user investment from a very wide range of abilities and backgrounds. I research, design and build user workflows and interfaces. Success means reducing the highly complex to the easy and familiar, without obscuring the depth and flexibility available under the surface.

## FRONTEND DEVELOPER @ DISCOVER IT
**January 2019 → September 2019 | Key Skills Developed: Vue, React, Sketch, Adobe, CSS, SASS, Kentico CMS**

Discover IT is an award-winning Digital Agency. They design and build web services across a wide array of industries, supporting digital transformation. I worked in a fast paced environment, moving quickly between clients and in-house projects, familiarising myself with new technologies, and frequently switching hats between designer and developer. Success meant producing digital experiences that were responsive, reliable, and visually stunning under tight deadlines.

**SOFTWARE ENGINEER @ CGI**
September 2012 → December 2018 | Key Skills Developed: Javascript, D3

CGI is a large scale business and IT consultancy. Straight out of school I had exposure to a wide variety of clients and projects that saw me travelling the UK and Europe. I worked for the UK Environment Agency, The Galileo satellite network, the UK Smart Meter program, Shell, the Ministry of Defence and more. For 3 years I also split my time between university study and full-time employment at CGI under their sponsored degree programme.

# Education

## BUSINESS MANAGEMENT @ UNIVERSITY OF WINCHESTER
Bachelor's Degree | First Class Honours | 2012 → 2015

Undertook in collaboration with the CGI sponsored degree program. This saw me studying part-time alongside full-time employment at CGI.

# Certifications

## DATA VISUALISATION WITH D3
freeCodeCamp | February 2021 | 🏆 Certificate →

## DIGITAL SKILLS: USER EXPERIENCE
Accenture | November 2020 | 🏆 Certificate →

## JAVASCRIPT ALGORITHMS AND DATA STRUCTURES
freeCodeCamp | November 2020 | 🏆 Certificate →
